3.08 - now it works again i found the file but it doesnt work anymore? anybody know what to do???? I can't get my HP Touchsmart to work with Ubuntu. How can i fix it? Steevea, im not familiar with the touchsmart model, but have you read the HP website? Steevea, it works better on Windows than on Linux? Monkwithafunk Yes,i tried everything that i could, knobe No,i can use it for linux. Monkwithafunk It works fine with windows. Steevea, do you have a black screen of death? Steevea, can you read the HP website? No,i just have a blinking white line. Monkwithafunk I can. Monkwithafunk It just dont work. Steevea, where can you click? Monkwithafunk For example,i tried to get my webcam working,but it didn't work. Monkwithafunk On the bottom i have four little lines. Steevea, does any of the lines produce anything? Monkwithafunk If i click on them i can get a menu with a webcam and a hardware manager. Monkwithafunk They all work. Steevea, do you use the camera module or your laptop camera? Monkwithafunk The webcam. is the model supported? Monkwithafunk And i can't get the mic working either. hmmm Monkwithafunk I found the file that it needs but i can't do anything anymore. Steevea, I cant help then Monkwithafunk I know,i have been waiting 82157476af
